

Statement

Senior general secondary education in the Netherlands (havo, from 2007)

Havo (hoger algemeen voortgezet onderwijs) is covered by the responsibility of the Ministry of Education, Culture and Science and is funded entirely by central government. It is governed by the Secondary Education Act (Wet op het voortgezet onderwijs – WVO).

The course has a normal duration of five years (age 12 to 17), after eight years of primary education (age 4 to 12), and is part of the system of general secondary education. At the end of the third year pupils have to choose a profile for the last two years.

The aim is to provide pupils with a general secondary education, and to prepare them for entrance to higher professional education.

Holders of the havo diploma are entitled to admission to any course in higher professional education (section 7.24 of the Higher Education and Scientific Research Act) (Wet op het hoger onderwijs en wetenschappelijk onderzoek - WHW). Pupils holding a havo diploma may also be admitted to the fifth year of pre-university education (vwo) to prepare them for entrance to university education. They can also be admitted to the secondary professional education.

Profiles are introduced to improve with reference to further education. A profile consists of a coherent programme preparing pupils for a course in higher education.

There are four profiles:

- Nature and technology
- Nature and health
- Economics and society
- Culture and society

Havo		Nature and Technology (NT)	Nature and Health (NH)	Economics and Society (ES)	Culture and Society (CS)

Explanation of the diploma/list of marks:

Pupils who complete their studies successfully receive a havo diploma. On the list of marks is mentioned:

- School examination marks,
- for which profile each subject has been examined,
- final examination marks,
- the subjects related to and the title of the profile paper,
- evaluation of the profile paper,
- evaluation of the subjects arts and physical education,
- final marks of de examination subjects,
- final examination result.

To enable a comparison with the marking system in another country, here is an explanation of the marks 1 to 10 in the Dutch system:

10 - excellent	5 - almost satisfactory
9 - very good	4 - unsatisfactory
8 - good	3 - very unsatisfactory
7 - very satisfactory	2 - poor
6 - satisfactory (pass)	1 - very poor

NLQF-level:

This degree is classified at level 4 of the Netherlands Qualifications Framework (NLQF). This NLQF level is comparable with level 4 of the European Qualifications Framework (EQF).
